

Start Tasks — Answers

1. Square: rotational symmetry?

Yes

2. Rectangle: rotational symmetry?

Yes

3. Regular triangle: rotational symmetry?

Yes

4. Square: order?

Order 4

5. Rectangle: order?

Order 2

6. Regular triangle: order?

Order 3

7. Circle: order?

Infinite

8. Regular pentagon: order?

Order 5

9. Regular hexagon: order?

Order 6

Start Tasks — Answers

10. Square: lines of symmetry?

4

13. Regular pentagon: lines of symmetry?

5

16. Parallelogram: rotational symmetry?

Yes, order 2

11. Rectangle: lines of symmetry?

2

14. Regular hexagon: lines of symmetry?

6

17. Parallelogram: order?

Order 2

12. Regular triangle: lines of symmetry?

3

15. Order 4: what does this mean?

Matches itself in 4 positions in 360°

18. Isosceles triangle: rotational symmetry?

No (order 1)

Start Tasks — Answers

19. Regular octagon:
order?

Order 8

22. Order 1: what does
this mean?

**No rotational
symmetry**

25. Regular triangle:
angle of rotation?

120°

20. Regular nonagon:
order?

Order 9

23. Kite: rotational
symmetry?

No (order 1)

26. Regular hexagon:
angle of rotation?

60°

21. Trapezium:
rotational symmetry?

No (order 1)

24. Square: angle of
rotation?

90°

27. Order 5: angle of
rotation?

72°
