

Push Tasks - Isometric Drawing

1. Count all cubes.

Count: visible + hidden

3. Draw from top view.

Top view is 3x2

5. 3 high 3 wide steps.

6 cubes, step pattern

2. Draw from left view.

Rotate isometric 60°

4. Draw 3x2x1 cuboid.

6 cubes, check proportions

6. 8 total, 2 hidden.

6 visible draw it

Push Tasks - Isometric Drawing

7. Draw 7 cube L.
Check: 7 total

9. 6 cubes in 2x3.
6 cubes, check 2x3 base

11. Two 7-cube possibilities.

8. Draw L from different angle.
Rotate view

10. 2x3 from above.
Plan view = rectangle 2x3

12. Tunnel shape.
e.g. 3x3x1 with missing

Push Tasks - Isometric Drawing

13. Design own composite.

Any unique shape with cubes counted

15. Add dimensions.
Label base and height

17. Minimum cubes?
Sometimes fewer than

14. Draw floating cube.

Add shadow underneath

16. Add dimensions.
Label base width, depth, height

18. 9 total, which hidden?

The one at

Push Tasks - Isometric Drawing

19. Draw from elevation.

**e.g. front=3, side=2 —
draw isometric**

**20. Front=3, side=2
draw.**

Check: matches both

**21. Plan, front, side
views.**

**Draw 3 orthographic
projections**

**22. 3 different with 4
cubes.**

**Check: each uses
exactly 4 cubes**

**23. Explain isometric
rules.**

**30°, vertical stays,
parallel lines**

24. Draw 3x3x3.

27 cubes check

Push Tasks - Isometric Drawing

25. Hidden > visible?
Possible if tower is

27. Fool about cube count.

**e.g. draw 3 visible but
hide 2 behind**

26. Prove 5 cubes.
Count visible+hidden =

4+1=5
