

Start Tasks - Isometric Drawing

1. Draw this cube.

Check: 3 visible faces,
30° lines

2. Draw this cube again.

Check: parallel lines
correct

3. Draw this cube third time.

Check: vertical lines
stay vertical

4. Draw this cuboid.

Check: longer on one

5. Draw this cuboid again.

Check: opposite faces

6. Draw this cuboid third time.

Start Tasks - Isometric Drawing

7. Draw with hidden lines dashed.

Dashed: back edges only

9. Draw tower of 3 cubes.

Check: 3 stacked

11. Visible faces?

3 visible faces from

8. Draw step shape.

Check: 3 cubes visible

10. Label faces on cube.

Top, front, side faces labeled

12. Edges of a cube?

12 edges

Start Tasks - Isometric Drawing

13. Vertices of cuboid?

15. Draw triangular prism.

Check: 2 triangular + 3

17. Shade right face.

Right face filled with gray

14. Draw pyramid.

Check: triangular faces meet at apex

16. Draw single cube on dot grid.

Use dots at 30° spacing

18. Drawing correct?

Yes if opposite edges

Start Tasks - Isometric Drawing

19. Cubes in steps?
3 cubes

21. Draw L-shape.
Check: 4 cubes visible

23. Draw 3 cube arrangement.
Check: 3 cubes in L

20. Cubes in tower?
3 cubes

22. Cubes in L-shape?
5 cubes (4 visible + 1 hidden)

24. Bottom face correct?
Yes if parallel to top face

Start Tasks - Isometric Drawing

25. Label dimensions.
Height, width, depth
labeled

**26. Sketch 2x3x1
cuboid.**

27. Faces on pyramid?
5 faces (1 square + 4
triangles)
